**LIBRARY AT MANILA.**  
One for Use of American Soldiers  
and Sailors Opened.  
Contains About 4,000 Volumes, Which  
Are Greatly Enjoyed by the Men  
-Need of Funds to Keep  
Library Going.

Mrs. Greenleaf, wife of Col. C. R.  
Greenleaf, United States Army, has suc-  
ceeded in opening an American library  
in Manila, for the use of American  
soldiers, sailors and citizens in Ma-  
nila.

There are about 4,000 volumes in  
this library, many of them worn and  
soiled, but greatly enjoyed by both  
officers and men. About ten papers  
are sent regularly from the United  
States, which are read at the library  
and then sent to the troops in the  
field. It is the earnest request of Mrs.  
Greenleaf that copies of papers from  
every part of the United States be  
sent to this library.

While contributions of books and  
magazines are most acceptable, the  
financial question is the serious prob-  
lem which confronts the library.

The salary of the librarian and the  
rent of the building as well as other  
expenses have to be met each month,  
and a letter from Mrs. Greenleaf,  
dated March 29, states that they have  
only enough money to keep the li-  
brary open three months longer, at  
the most. Unless aid comes from the  
United States they will be compelled  
to close the library, which has been  
a source of pleasure to the men who  
are enduring the hardships of war in  
a foreign country.

The Woman's Army and Navy  
league, an organization composed  
mainly of the wives and daughters of  
officers of the United States army and  
navy, have been appealed to by Mrs.  
Greenleaf, and they will act as her  
representatives in this country.

Contributions will be received by  
Mrs. Marshall Ludington, vice pres-  
ident of the Woman's Army and Navy  
league, care Gen. M. I. Ludington,  
quartermaster general, war depart-  
ment, Washington.

**REVIEW OF JAPAN'S NAVY.**

**The Large Fleet Fights a Sham Battle  
in Attack and  
Defense.**

One of the great events of the pres-  
ent year in Japan has passed into his-  
tory. The impressive review of the  
Japanese fleet by the emperor, while  
not so imposing as the great English  
display on the queen's jubilee, was in  
some regards of greater significance,  
besides being in itself a conspicuous  
success as a picturesque spectacle.  
The review was preceded by extensive  
maneuvers of the fleet in the island  
sea, that scene being substituted for  
the Korean straits in order to avoid  
and semblance of a design to wound  
Russian sensibilities.

As newspaper correspondents were  
strictly excluded, scarcely any partic-  
ulars were obtained concerning the  
various movements of the fleet except  
that the general design was to represent  
an attack upon and defense of that  
vast body of water which, in the event  
of war, would furnish to the empire's  
fleet not only an impregnable haven  
of refuge, but also a point of attack  
from which, on three different sides  
it could issue to assail an enemy.

The maneuvers over, 50 of the war-  
ships, including the finest of the bat-  
tleships and cruisers, assembled in  
Kobe bay, where, with the hills and  
shores black with spectators, the em-  
peror reviewed the fleet, which the  
Japanese now regard with idolatrous  
pride.

The financial situation is growing  
more and more precarious and the em-  
pire is at present standing on very  
thin ice. The loaning Japanese bank  
are offering rates of interest for de-  
posits, while, significantly enough,  
the foreign banks are at the same time  
cutting their rates down 33 per cent

**BUSINESS DEAD IN DAWSON.**

**Great Part of the Population of the  
Alaskan City Prepares to  
Go to Nome.**

Private advices from Dawson City  
dated April 15 report a great lack of  
business activity. The Sunday clos-  
ing act, together with unfavorable  
weather, have nearly killed business.  
The temperature was then 60 degrees  
above zero and the weather had been  
nearly as warm for three weeks, mak-  
ing it next to impossible to use trails  
to the mines. A heavy rain on April  
10 left the country bare of snow and  
in consequence everything now has  
to be hauled on wagons, which are  
few in number. One last week sold  
for \$1,000, but the ruling price is \$600.

Within the last ten weeks 500  
horses have reached Dawson, all draw-  
ing heavily-loaded sleighs of every-  
thing imaginable. Teams that sold  
for \$800 a short while back  
can now be purchased there cheaper  
than in the states. Fresh eggs, which  
were three dollars a dozen, will not  
bring half of that price. Bicycles,  
which formerly sold at from \$150 to  
\$300 apiece, can hardly be given away,  
there being no trails to ride on.

There is an abundance of idle labor  
in Dawson, as the men have just  
stopped digging and have not begun  
to mine. Two-thirds of the popula-  
tion will probably go down the river  
to Nome as soon as navigation opens.  
Steamers with a capacity of 2,000 pas-  
sengers are tied up there and the  
transportation is already sold out.  
The clean-up in Dawson will be large  
this year.

Five men robbed the safe of a New  
York restaurant in broad daylight and  
secured only \$1,200. If they had un-  
derstood the restaurant business, says  
the Buffalo Express, they would have  
gone through the pockets of the wait-  
ers and got something worth while.

**DOING GOOD WORK.**  
Signal Corps Connecting Entire  
Visayan Group by Wire.

Nearly 2,000 Miles of Telegraph Wire  
Already Laid with 160 First-Class  
Telegraph Offices-Further  
Work Planned.

A new progress map of signal corps  
telegraph lines and cables in the Phil-  
ippines, just prepared under the direc-  
tion of Gen. A. W. Greeley, is of especial  
interest at this time. It shows not only  
the system as it existed on March 31,  
but also projected military telegraph  
lines and cables now in process of con-  
struction.

Telegraphic communication between  
Manila and the south has been entirely  
dependent upon the English cable to  
the Visayan Island of Panay, Negros  
and Cebu. This cable, which was  
broken by an earthquake on April 14,  
has not yet been repaired, and the long  
interruption emphasizes the great mili-  
tary importance of the alternate tele-  
graph route to the southern islands  
from Manila, which is now being con-  
structed by the signal corps. The sys-  
tem recommended by Gen. MacArthur  
has been fully approved by Secretary  
Root, and will be pushed to rapid com-  
pletion.

It is expected that the entire Visay-  
an group will be connected by mili-  
tary lines before July, and that the  
southern system of cables and land  
lines will be in operation by the end of  
the rainy season. The extent and mag-  
nitude of the telegraph and cable opera-  
tions of the signal corps in the Phil-  
ippines is hardly realized or known.  
There are 160 first-class telegraph of-  
fices, manned by nearly 300 skilled op-  
erators, who handle by telegraph on  
the island of Luzon alone about 300,000  
words each day. In addition, there are  
about 150 long-distance telephone sta-  
tions in operation in various parts of  
the archipelago.

The work of the signal corps, when  
completed, will stretch through nearly  
14 degrees of latitude. Six signal corps  
cables are now in operation, and in all  
probability the cables and land lines  
which were nearly 2,000 miles in length  
on March 1 will aggregate at present  
2,500 miles. While some branches are  
for strictly military purposes, the most  
of these lines are permanent structures  
which will have a very important bear-  
ing in the development of the trade re-  
lations of the various islands.

**OUTING TRIP BY WAGON.**

**Chicago Student at Princeton Starts  
Out on a Novel Vac-  
ation Trip.**

James W. Thorne, of Chicago, a  
senior in Princeton, left Princeton  
the other morning in a covered wagon  
for the far west. He will start on the  
journey alone, but will be joined later  
by John G. Ralston, of Chicago, who  
graduated last year from Princeton;  
G. L. Denny, of Indianapolis, a senior  
in the university, and E. B. Meigs, of  
Philadelphia, also a senior. The stu-  
dents are going for a good time and  
expect to travel in the wagon all sum-  
mer. They intend to make their first  
long stop at Yellowstone national park,  
where several weeks will be spent in  
hunting wild animals with cameras,  
with which the expedition is well  
equipped. The wagon was built espe-  
cially for the purpose and will con-  
stitute living-room, kitchen and bed-  
room. Guns and fishing tackle have  
been provided in abundance and three  
dogs will act as mascots and afford  
amusement. After the stay in Yellow-  
stone park the party will go to San  
Francisco.

**WEDS HIS NURSE.**

**Kenosha Man, Now Fighting in South  
Africa, Surprises His  
Friends.**

The Kenosha (Wis.) friends of  
Charles J. Spruce, a Kenosha man who  
is fighting with the British army in  
South Africa and who was decorated  
recently with the Victoria Cross, were  
surprised the other morning when the  
relative of Spruce in Kenosha received  
a letter from him announcing his mar-  
riage to a young woman of Johannes-  
burg who had recently been a nurse  
with the British army.

The story of the wedding was the  
old romance of the battlefield. Two  
years ago Spruce was taken ill and  
sent to the hospital, and fell in love  
with the young woman who attended  
him during his illness. In connection  
with the announcement of his wed-  
ding Mr. Spruce writes that he will  
retire from the army in the near future  
and go to London for a brief visit and  
then return to Kenosha.

**Duke of Fife.**

Queen Victoria has secured the so-  
cial position of some of her great-  
grandchildren by making a new grant  
of the dukedom of Fife to the prince of  
Wales' son-in-law and creating him earl  
of Macduff in the peerage of the United  
Kingdom. The earldom and dukedom,  
in default of male issue by Princess  
Louise of Wales, go to each daughter  
they have or may have and her male  
successors according to priority of birth.

**Church Communicants.**  
By the last census there were 20-  
612,806 communicants in all the  
churches of the United States. Of  
these, 6,257,871 were Catholics, 4,389-  
284 Methodists, 3,712,408 Baptists,  
1,278,332 Presbyterians, 1,231,072 Lu-  
therans and 540,500 Episcopalians.

Berlin's schoolboys have been stirred  
to unusual lawlessness by this winter's  
snow. After Prince Henry's reception  
hundreds of boys in the Lustgarten  
began by snowballing omnibuses and  
carriages and then attacked people  
walking on foot. They bombarded the  
doors of the museum, which had to be  
closed, and drove off the mounted and  
the park policemen. The reserve had  
to be called out to disperse the boys.
